

IMPAQT project is proud to announce the start of Round 1 of its
Life-long Learning Courses
www.impaqt.edu.eg

Nile University in collaboration with University of Cagliari, Italy will be implementing

Places for People Special User Needs in Building Types

Given from the lens of a people-centered approach, this course offers knowledge beyond what you can find in standard books. Drawing upon the fundamentals of environmental psychology and environment-behaviour studies, it enables you to better consider special user group needs addresses facilities that are not in textbooks. Learn more about restorative environments, and well-being promoting designs!

Instructors

Venue: Nile University
Date: 3-7 November 2019
Time: 4-9 pm
FREE
only this time around

Ferdinando Fornara
Università di Cagliari – UNICA

Ferdinando Fornara, PhD, is an associate professor in social and environmental psychology at the Department of Education, Psychology, and Philosophy of the University of Cagliari (Italy). He is member of the Editorial Board of the Journal of Environmental Psychology (IF 2017=3.553), Associate Editor in the Environmental Psychology section of Frontiers in Psychology (IF 2017=2.089), and member of the Editorial Board of the Bulletin of People-environment Studies. He is also a Board Member of the International Association of People-environment Studies (IAPS) and Member-at-large of the Board of the International Association of Applied Psychology (IAAP). He is a referee for various high-impact scientific journals and has been member of the Scientific Committee of various International Conferences in the environmental psychology domain. His research interests include perceived quality of places (urban neighbourhoods, healthcare environments, school, etc.) and psychometric tools measuring lay evaluation of design attributes.

Dina Shehayeb
Nile University – NU

Dina Shehayeb is an architect/urban designer, professor and Program Director of the Architecture and Urban Design program at Nile University, Technical Coordinator of IMPAQT project as well as principal of her private practice Shehayeb CONSULT. She earned her Ph.D. from UWM at USA in 1995 focusing on Environment-Behaviour Studies in Urban Design, Streets and Public Space. Specialized in trans-disciplinary research, she works on bridging the gap between the physical environment and its socio-cultural and psychological dimensions. Her expertise lies in users' needs-based neighbourhood design and planning, revitalizing historic areas, participatory design, as well as development of planning and design guidelines. She has participated in multiple studies and projects with national and international institutions including IRD, GIZ, and UNESCO; served on multiple scientific committees including the UN Habitat Advisory Boards; has more than 30 publications; and has taught and supervised theses nationally and internationally.
