International PhD Programme in PHYSICS in collaboration with Universitat Autònoma de Barcelona	
DISCIPLINARY SCIENTIFIC AREA	02- PHYSICAL SCIENCES
COORDINATOR	PROF. PAOLO RUGGERONE
HEAD DEPARTMENT	DEPARTMENT OF PHYSICS
DURATION	3 YEARS
LEARNING OUTCOMES AND RESEARCH TOPICS	<p>The PhD programme in Physics pursues the following goals:</p> <ol style="list-style-type: none"> 1. COMPLETING THE BACKGROUND IN PHYSICS – The PhD candidates will attend specific lectures, seminars, and additional lecturing activities at post-graduate level. 2. DEVELOPING A PROPER RESEARCH ATTITUDE - The PhD candidate will be assigned a supervisor according to the state-of-the-art research topic who will supervise her/his research and training activities. PhD students join research groups and will work in teams including undergraduate students, post-docs, researchers, and faculty members. Additionally, to complete the training to research the supervisor will favour the involvement and the commitment of the PhD candidate in international collaborations as well as the attendance at workshops and conferences. 3. WORKING ON AN INNOVATIVE RESEARCH TOPIC – The research activity of the PhD candidates will be inserted in research projects. The PhD candidates have (i) to work on a novel topic; (ii) to publish the obtained results in national and international scientific journals; (iii) to present the research line and the obtained results in both internal review sessions (year-end seminars and year-end reports) and workshops and/or conferences. 4. DEEPENING ASPECTS OF PROJECT MANAGEMENT – The PhD candidate will be exposed to specific courses on skills related to drafting and managing a project including issues associated with the intellectual property. <p>In Italy, PhDs in Physics are usually employed in the academy and/or in public research institutes. However, due to the involvement of research groups of the Physics Department in projects with a strong contribution from companies (examples are the SRT-Sardinian Radio Telescope and the project supported by the NIH-National Institutes of Health) we hope that the connection with industries and companies will be strengthened.</p>
