Educational objectives

The Master's Degree in Management aims at:

- transmitting advanced knowledge of the primary corporate functional areas (management audit, marketing, corporate finance, organisation, strategic management);
- giving an integrated view of accounting, financial statements, corporate finance, planning and management audit;
- providing administrative expertise and fostering successful communication with people in charge of corporate functional areas, financial markets, corporate and tax law experts;
- developing an integrated view of issues related to strategic and operational management of global firms, taking into account the international and multicultural features;
- providing skills and tools necessary to work as practitioner and business consultancy;
- providing knowledge and skills necessary to create and run new businesses.

Careers

- Marketing manager
- Organization and HR consultant
- HR junior manager
- Specialist or general manager within SME and international enterprises
- Startupper
- International enterprise junior manager
- Strategic consultant for enterprises involved in the international market
- Tax advisor (only after passing the state exam and doing a traineeship envisage in regulations)
- Statutory auditor (only after passing the State Exam and doing a traineeship envisaged in regulations)
- Business consultant in the field of administrative law, tax law and company law
- Administrative officer

- Corporate financial management specialist
- Controller
- Internal auditor

Training modality

Training modalities consist of individual study, lectures, practice exercises, case study analyses, role-playing, involvement of practitioners, seminars and traineeship.

Despite not being compulsory, attendance is strongly recommended.

International exchange programs

The Master's Degree in Management fosters international mobility, the most pervasive programme is Erasmus+. Thanks to it, students can have lectures and take exams in a European university. Another important international mobility programme is Erasmus + Traineeship, which enables students to do a traineeship in European public institutions and private enterprises. The Master's Degree also features Globus programmes, which aim toward non-European internationalization.

Access requirements

A Bachelor's Degree of another equivalent academic qualification achieved overseas is required. Applicant must have earned this qualification in old quadrennial Degree courses in Economics or in one of the following degree courses: L-18 (DM 270/04), L-17 (DM 509/99), L-33 (DM 270/04), L-28 (DM 509/99).

Students must have a B1 English language certification for Management and Control, Professional and Management and Business Creation, and B2 English language certification for International Management.
